

See You

Shallou

If I will never see you again
Let's dance until the lights go down
See you for the last time now
Or maybe in another life

If I will never see you again
Let's dance until the lights go down
See you for the last time now
Or maybe in another life

If I will never see you again
Let's dance until the lights go down
See you for the last time now
Or maybe in another life...

Don't know if I'll see you again
Don't know if I'll see you again
Don't know if I'll see you again
Don't know if I'll see you again
Don't know if I'll...

Don't let me see you walking out my door...

Don't know if I'll see you again
Don't know if I'll see you again
Don't know if I'll see you again
Don't know if I'll...

We go out like a spark in the night we go out with nothing left to hide

If I will never see you again
Let's dance until the lights go down
See you for the last time now
Or maybe in another life

If I will never see you again
Let's dance until the lights go down
See you for the last time now...

Don't let me see you walking out my door...

Don't know if I'll see you again
Don't know if I'll see you again
Don't know if I'll see you again
Don't know if I'll...
