

So Far

Shallou

Castles of sand
Can we turn it around and build it again?
That's all we had
When your heart's on your sleeve for them

Don't go this on your own
Look back down every road
So far from what we know
So far

I'm running for my life, darling
Chasing a feeling I've forgotten
Don't shut the door on me. I'm close

I'm running for my life, darling
Slipping and sinking to the bottom
Don't shut the door on me. I'm close

I'm not so far
Not so far
Not so far

Not so far
Not so far
Not so far
