

Technicolor Wave

Shallou

I miss you
More than I thought I would
I guess I've fallen
Fallen in love at such a bad time

I'm seeing the whole world for all that it is
But each pretty place has a certain sadness
And I wish I...
Wish I could show you it all

For love we felt the fall
When we held it in our hands
For what we had we fall again, oooh
If time replays I'm never far, oooh

Made it to Berlin
But Berlin is cold and I want to go home
And I can't focus
Cause I'm too busy thinking bout us
I'm seeing the whole world its all that I've dreamt
But now all of my dreams are about you instead
And I wish I could just bring them all back to life

For love we felt the fall
When we held it in our hands
For what we had we fall again, oooh
If time replays I'm never far, oooh

Oooh, oooh
