

Think About

Shallou

You, you're everything I think about
Tell you bout
You, it's everything I lived without
It's true
You're everything I think about
About you
All of that I'm thinking 'bout

You, you're everything I think about
Tell you bout
You, it's everything I lived without
It's true
You're everything I think about
About you
All of that I'm thinking 'bout

(All of that I'm thinking 'bout)

You, you're everything I think about
Tell you bout
You, it's everything I lived without
