Waiting here for you
To take me somewhere new
Waiting here for you
This feeling's overdue
Waiting here for you
So we can share this view
Waiting here for you
Just tell me you'll be true

I don't wanna lie to you
Baby, I promise I'll be true
I don't wanna lie to you
Baby, I promise I'll be true

Waiting here for you
To take me somewhere new
Waiting here for you
This feeling's overdue
Waiting here for you
So we can share this view
Waiting here for you
Just tell me you'll be true

Just tell me you'll be true
Just tell me you'll be true

I don't wanna lie to you
Baby, I promise I'll be true
