

# Us

Shallou

Take what you need  
But you're holding out for something  
Stay, you can stay  
And we'll go away to somewhere again  
Where there's only us  
No more heartbreak  
Only us

Take what you need  
But you're holding out for something  
Stay, you can stay  
And we'll go away to somewhere again  
Where there's only us  
No more heartbreak  
Only us

(Holding out, holding out)  
(Holding out, holding out)

Take what you need  
But you're holding out for something  
Stay, you can stay  
And we'll go away to somewhere again  
Where there's only us  
No more heartbreak  
Only us
