

You And Me

Shallou

Shadows faded black
Lovers losing track
Bashful
We always hide our cracks
Youthful
Cause we never turned our backs

It's just you and me (wish that I could say more, say more)
Wish that I could say more, say more
Just you and me (wish that I could say more, say more)
Wish that I could say more, say more
Just you and me (wish that I could say more, say more)
Wish that I could say more, say more

Bashful lovers, just you and me
We take it slow, just you and me
Falling backwards, just you and me
Sink so low, just you and me

Bashful lovers, just you and me
We take it slow, just you and me
Falling backwards, just you and me
Sink so low, just you and me

Blankets, hold us tight
Whisper, please take this right
Cause we're bashful
We'll forever burn inside
Trust that, this is not goodbye

It's just you and me (wish that I could say more, say more)
Wish that I could say more, say more
Just you and me (wish that I could say more, say more)
Wish that I could say more, say more
Just you and me (wish that I could say more, say more)
Wish that I could say more, say more

Bashful lovers, just you and me
We take it slow, just you and me
Falling backwards, just you and me
Sink so low, just you and me

Bashful lovers, just you and me
We take it slow, just you and me
Falling backwards, just you and me
Sink so low, just you and me

Wish that I could say more, say more
Wish that I could say more, say more

Just you and me (wish that I could say more, say more)
Wish that I could say more, say more
Just you and me (wish that I could say more, say more)
Wish that I could say more, say more
Just you and me (wish that I could say more, say more)
Wish that I could say more, say more

Wish that I could say more, just you
