

Drugs&Lust

Shallow Side

Drugs

It keeps us going

Lust

It is the motive

Drugs

It keeps us going

Lust

It is the motive

Life draped in gold

Full of your fantasies

Scarlet red dress and promiscuity

Ignite desire deep down inside of me

Burn it down

Oh lawd I've done it again

Save me from myself

We're all burning in the heat of the night

Chasing fire till the morning light

Living life at the edge of a knife

Burn it down

Burn it down

That devil smile

You put the spell on me

Straight down to hell

Where I keep following

This so called love is such a tragedy

Burn it down

Oh lawd

I've done it again

Save me from myself

We're all burning in the heat of the night

Chasing fire till the morning light

Living life at the edge of a knife

Burn it down

Burn it down

We're all burning in the heat of the night

Chasing fire till the morning light

Living life at the edge of a knife

Burn it down

Burn it down

Drugs

It keeps us going

Lust

It is the motive

Drugs

It keeps us going

Lust

It is the motive

Drugs

So high

It keeps us going

Lust
So blind
It is the motive
Drugs
So high
It keeps us going
Lust
So blind
It is the motive

Oh lawd
I've done it again
Save me from myself

We're all burning in the heat of the night
Chasing fire till the morning light
Living life at the edge of a knife
Burn it down
Burn it down
We're all burning in the heat of the night
Chasing fire till the morning light
Living life at the edge of a knife
Burn it down
Burn it down

Drugs
So high
It keeps us going
Lust
So blind
It is the motive
Drugs
So high
It keeps us going
Lust
So blind
It is the motive
