

## Every River

### Shallow Side

Every river flows back into the sea  
Every angel falls if they don't believe  
Brace yourself for the fall when you call  
I'll be out of reach  
Because you're dead to me

Don't look away  
We learn by learning  
Can't turn the page  
If the book is burning  
Hold the line give it time  
(I'm losing time, losing time)  
Breathe in count to ten, get up again

Can't run away, won't make things better  
I'm losing faith, as I write this letter  
All this time holding lines  
Yea  
It breaks me down  
It breaks me down

Sometimes it's best to walk away and that's ok

Every river flows back into the sea  
Every angel falls if they don't believe  
Brace yourself for the fall when you call  
I'll be out of reach  
Because you're dead to me

Every river flows back into the sea  
Every secret hides in a memory  
Brace yourself for the fall when you call  
I'll be out of reach because you're dead to me  
Dead to me

Sometimes it's best to walk away and that's ok

Ever river flows back into the sea  
Every angel falls if they don't believe  
Brace yourself for the fall when call  
I'll be out of reach because you're dead to me

Every river flows back into the sea  
Every secret hides in a memory  
Brace yourself for the fall when you call  
I'll be out of reach because you're dead to me  
Dead to me

Maybe I should have known  
All the red flags you've sewn  
Sometimes it's best to walk away and that's ok

Ever river flows back into the sea  
Every angel falls if they don't believe  
Brace yourself for the fall when call  
I'll be out of reach because you're dead to me

Every river flows back into the sea  
Every secret hides in a memory  
Brace yourself for the fall when you call  
I'll be out of reach because you're dead to me  
Dead to me

Ever river flows back into the sea  
Every angel falls if they don't believe

Dead to me

Ever river
