

My Addiction

Shallow Side

Should've known when I met you but the poison called my name
Felt paralyzed when I saw it in your smile
Should've known better, had a chance to escape the pain
I'm shackled up and bound in chains
A victim to this game that you play

So haunting and captivating
The way you control me brings me to life

I know, I know you're just my addiction
I want you, I need you
One more, one more fix before you set me free
Can't you see you bring out the hate inside me?

God, it drives me crazy, every move's a mystery
I feel so high knowin' secrets that you hide
Thinkin' you're so clever, I'm just a victim to your game
If it was all left up to me
I'd give it back just to show you what I've been through

So haunting and captivating
The way you control me brings me to life

I know, I know you're just my addiction
I want you, I need you
One more, one more fix before you set me free
Can't you see you bring out the hate inside me?

I know, I know, you're just my addiction
I want you, I need you

I know, I know you're just my addiction
I want you, I need you
One more, one more fix before you set me free
Can't you see you bring out the hate inside me?

The hate inside me
The hate inside me
