

No More

Shallow Side

I've seen it all
The rise and fall
Ever since I was a boy
The flame ignites
The hearts divide
We built it to destroy
There's no recompense
When it's all said and done
The ash and dust done covered you up
And you thought you were the only one
No more
No more

I've been beat down
No more
I've been left out
No more
When the world fell on my doors
I was there to settle the scores
I've been beat down
No more
Oh oh oh oh oh no more
Oh oh oh oh oh no more

We're the first
The last generations past
All went without a sound
But not today
Life in the fray
Better here than in the ground
Cause there's no recompense when it's all said and done
Won't cut it when the black sheep's coming from the back seat
You thought you were the only one

I've been beat down
No more
I've been left out
No more
When the world fell on my doors
I was there to settle scores
I've been down
No more
Oh oh oh oh oh no more
Oh oh oh oh oh no more

We're so much more than this
We're so much more than this
We're so much more than this
We're so much more than this

I've been beat down
No more
I've been left out
No more
When the world fell on my doors
I was there to settle the scores
I've been down

No more

Ohh oh oh oh oh no more

Ohh oh oh oh oh no more

We're so much more than this

We're so much more than this

We're so much more than this
