

Not Alone

Shallow Side

Listen are you lost
Are you struggling
To find a better place
To call home
It's been a while
Since I've seen you
Yeah
You know I've been away
But you're not alone
And I'm fighting for
Better days
When we stayed up late planning our escape
We were reaching for
Stars that were so far away

I've retraced my steps
Through that old house
To find myself
And it's clear
I've been long gone
Yea things have changed
But the memory's stay
You know I've been away
But you're not alone
I've been fighting for
Those better days
When we'd stay up late
Planning our escape
We were reaching for
The stars that were so far away

Do you remember when I promised
I'd never run away
When it was darkest
I showed you
To never to be afraid
My heart wants to stay
But I've gotta go
It kills me to leave
But I want you to know
Remember
Remember
Remember
You're not alone

When all the walls come crashing down
I'll be there to hold your ground
When the storms come rolling in
I'll be your calm
Your peace within
When it's all said and done
I will catch you when you fall
You're not alone

Listen
Are you lost
Are you struggling

To find a better place
You're home
You're not alone
You're not alone

Do you remember when I promised
I'd never run away
When it was darkest
I showed you
To never to be afraid
My heart wants to stay
But I've gotta go
It kills me to leave
But I want you to know

Remember
Remember
Remember
You're not alone
Remember
Remember
Remember
You're not alone
Remember
Remember
Remember
You're not alone
