

Raise It Up

Shallow Side

So sick and tired of the same routine
Need to get up, find another scene
Set it off just right, burn up the town
There's no stopping, there's no slowing down

Just living with our hands up in the clouds
And there's no way to control it

Raise it up
Here's to the night
Touch the sky
So alive
Live it up, we never say never
On this ride, we can live forever
Oh
So alive, we can live forever
Oh
On this ride, we can live forever

We have nothing to lose, so much to gain
Seize the moment,
Never looking back, living in the now
We're not stopping, we're not slowing down

Just living with our hands up in the clouds
And there's no way to control it

Raise it up
Here's to the night
Touch the sky
So alive
Live it up, we never say never
On this ride, we can live forever
Oh
So alive, we can live forever
Oh
On this ride, so alive
We can live forever
Oh

Raise it up
Here's to the night
Touch the sky
So alive
Live it up, we never say never
On this ride, we can live forever
Oh
So alive, we can live forever
Oh
On this ride, so alive
We can live forever
