

# Temptations

## Shallow Side

Whiskey glass filled with cigarettes  
The fire's lost its spark  
The thoughts inside my sober mind  
Now dance out in the dark

What have I become  
What have I become  
A whiskey glass filled with cigarettes  
Suffocating suffocating on

Temptations  
Tattooed on my back  
Temptations  
Show me who I am

Cause all I want  
Is all I am  
And all you need  
I cannot give  
Emptiness

Empty stare and nothing's there  
The mirror speaks the truth  
All my ghosts  
In Hell they toast  
They know I'm coming soon  
What have I become  
What have I become  
Empty stare and nothing's there  
Suffocating suffocating on

Temptations  
Tattooed on my back  
Temptations  
Show me who I am

Cause all I want  
Is all I am  
And all you need  
I cannot give

Take it take it take it all away  
Use me till I'm useless and empty  
Pleasing this whole world is beyond me  
Take it take it take it all away

Temptations  
Tattooed on my back  
Temptations  
Show me who I am

Cause all I want is all I am  
And all you need I cannot give  
Cause all I want is all I am  
And all you need I cannot give  
Emptiness

Ohh

And I can't let 'em go
