

# We Won't Die

Shallow Side

A fairy tale can cut so deep  
When you see that it's all lies  
You create an honest painting  
For your disguise (We won't die)  
A perfect world, a perfect portrait  
Strangers lips to seal the night  
A perfect storm across the shoreline  
And a rising tide and we survive

Whoa, whoa  
We won't die, we won't die

I know that we can be worth it  
Believe we all deserve it  
And if our story stands the test of time  
Oh, we won't die

Whoa, whoa  
(We won't die) We won't die  
(We won't die) We won't die  
Whoa, whoa  
This is the story of our lives

Don't walk away, can't you see this is different?  
A lovers game of battle scars  
You think we can live forever  
I know that we won't die, no, we won't die

Whoa, whoa  
We won't die, we won't die  
(We won't die)

I know that we can be worth it  
Believe we all deserve it  
And if our story stands the test of time  
Oh, we won't die

Whoa, whoa  
(We won't die) We won't die  
(We won't die) We won't die  
Whoa, whoa  
This is the story of

From the mountain tops we'll scream  
Until our lungs give out  
We won't back down, give out now  
Until we're six feet down

We don't have to prove we're perfect  
To know we all deserve it  
'Cause if our story stands the test of time  
Oh, we won't die

Whoa, whoa  
(We won't die) We won't die  
(We won't die) We won't die  
Whoa, whoa

This is the story of our lives
