

## Run Wild Run Free

Sham 69

They never seem to care about the things we would  
They say while you're young you gotta be good  
But they don't know and time won't wait  
So be yourself before it's too late

Life is much too short  
To throw it all away

Say the old days were a lot of fun  
Well if they let us we'll have some fun  
But they don't know and time don't wait  
So be yourself before its' too late

Run wild run free and never look behind you  
The key of life is in your heart  
To get to it you gotta play the part

They're leaving us a world that we've got to change  
But if you try you'll get blamed  
But they don't know and time don't wait  
So be yourself before it's too late
