

Abomination

Shamir

I am the abomination bombing the nation
With a mind outside the prison
Was never a revelation keeping kin in cages
Would be met with abolition
I'm just a faggot who lives like a maggot
Because I'm always with the shits
I'll keep my foot on your neck and don't you forget
Can't trust the government to change shit

Unless it's just for optics
Say my life matter, but it's just an option
Madam vice president's a cop, don't cop shit
Being pushed to you as progress, for profit
You may not be enslaved, but is one
In the land of the free and brave, and machine guns
And begging for a livable wage, out of billions
Being hoarded by a couple of men who ain't did nothing
In the new paradigm you ain't safe
You can keep your eyes shut but you can't look away
In the 3D thinking 2D gets you flattened right away
And I ain't Tracey Chapman, but rev-rev-rev-revolutions on the way
Two wrongs don't make a right
But two ass beatings means one less life
And if you're my oppressor I'll take your life
Keep you sleeping like a baby with a gleam in your eye, 'cause

I am the abomination bombing the nation
With a mind outside the prison
Was never a revelation keeping kin in cages
Would be met with abolition
I'm just a faggot who lives like a maggot
Because I'm always with the shits
I'll keep my foot on your neck and don't you forget
Can't trust the government to change shit

Thicc tankie bitch and a custom guillotine
Tell 'em come outside, just wanna talk won't make a scene
Tell that Bezos nigga he ain't gonna get my streams
Accidental Popstar 2019
Hacking all you hoes like my name is anonymous
My words heavy on your mind like a hippopotamus
Leave your head toothless like your name is Eustace
Beat you hoes to death like your name is Rasputin
Destroy the system till God knows what end
Fuck capitalism and the exploitation
Keep these politicians on their toes, Michael Jackson
You niggas ain't man enough for me, Toni Braxton
Burn it all down and unleash the Kraken
I only tell the truth and you'll never catch me cappin'
Making up for what you niggas stay lacking
And if you ain't for me, you against me, get packing

I am the abomination bombing the nation
With a mind outside the prison
Was never a revelation keeping kin in cages
Would be met with abolition
I'm just a faggot who lives like a maggot

Because I'm always with the shits
I'll keep my foot on your neck and don't you forget
Can't trust the government to change shit

I am the abomination bombing the nation
