

# Anybody

Shamir

Sometimes I feel like my mentally ill grandmother  
Who died on my birthday back in 2013  
Sometimes I feel like the process to heal is getting longer  
And all I want is peace by all means

I feel like I can be anybody  
In this body of mine  
My personalities all fighting to be seen  
And it's hereditary  
And it's hereditary

Sometimes, sometimes I feel like my bipolar brother  
Who I always hope is doing fine  
Sometimes I feel like my concerned mother  
Who wants to take control of my life

I feel like I can be anybody  
In this body of mine  
My personalities all fighting to be seen  
And it's hereditary  
And it's hereditary...
