

Bleed It Out

Shamir

You always say that it's your heart
But it's another body part
It worked against me with all its might
But I'm pouring it out tonight

And I can't remember when you said sorry
But there was one thing that you said to me

Bleed it out right here
With every drop and every tear
Bleed it out, over me
And the pattern's repeating

And now I'm scared of what you say
And what you feel can be so strange
But still it's just not about you
Think about what I go through

And I can't remember when you said sorry
But there was one thing that you said to me

Bleed it out, right here
With every drop and every tear
Bleed it out, over me
And the pattern's repeating

Bleed it out, over me
And the pattern's repeating

Bleed it out, over me
And the pattern's repeating
Bleed it out, bleed it out
Repeating
