

Why you screaming?
Why you coughing up a lung?
Just stop complaning, please
My life's changing
It's something I'm doing constantly
It's gonna happen, it's in the stars

Do you think that it'll be easier
Cause you're the one that I prefer
But staying still is something that
I can't do
And we see things in a different way
But you were never one for the chase
But my head is always in the race
And I can't lose

I can't get lonely
I do so well all by myself
I really get along somehow
Think I can make it
I've been around a time or two
And life's a crazy merry go round

Do you think that it'll be easier
Cause you're the one that I prefer
But staying still is something that
I can't do
And we see things in a different way
But you were never one for the chase
But my head is always in the race
And I can't lose

So I'll play along with this charade
But know I'm not to be fooled
So I'll play along with this charade
But know I'm not to be fooled

Do you think that it'll be easier
Cause you're the one that I prefer
But staying still is something that
I can't do
And we see things in a different way
But you were never one for the chase
But my head is always in the race
And I can't lose
