

Like a Bird

Shamir

You were like a bird
You flew away from me
Will you ever come back?
Will you ever come back to me?

I thought I was all you adored
I don't know what you want anymore

We were happy, we were good
When we're together the world stood
Still, I still wanna be with you
I still, wanna be with you

You were like the snow
You fall down gently
All you do is freeze me, freeze me

You lefe me out in the cold
The only thing you ever known

We were happy, we were good
When we're together the world stood
Still, I still wanna be with you
I still, wanna be with you

We were happy, we were good
When we're together the world stood
Still, I still wanna be with you
I still, wanna be with you
