

## The Beginning

Shamir

I wish I could turn back time  
Just like Cher  
Remember the fun times  
We used to share  
But you took them away from me  
Like cable TV, and now I'm stuck watching what use to be

From the first kiss, I was sucked in  
But you never thought for a second  
That we're so caught up on having a happy ending...  
We forgot the beginning

Remember the fun times  
Yeah I was there  
Mentally emotionally  
It's clear

How dare you do that to me  
It wasn't right  
Now I'm stuck with all these sleepless nights

From the first kiss, I was sucked in  
But you never thought for a second  
That we're so caught up on having a happy ending...  
We forgot the beginning

I'm thinking about my life  
How I wish I could turn back time  
But it's never that easy

From the first kiss, I was sucked in  
But you never thought for a second  
That we're so caught up on having a happy ending...  
We forgot the beginning

The beginning  
The beginning  
On having a happy ending...  
The beginning
