

# Ultra

Shamir

My pain travel through my genes  
Nothing is affecting me  
I am not a human being  
Monarch of butterflies  
See the dead in my eyes  
Air rising water sign

I can't help that I'm dissociating  
Even when I wanna feel everything

Cause I'm ultra, I'm the best  
I'm the alpha of the rest  
I'm creating worlds with my mind  
I might've lost it but I always find

Never know which thought is mine  
All the pain I leave behind  
Synchronize in real time  
I'm programmed immaculately  
Never get a taste of me  
Wash my memory clean

I can't help that I'm inundated  
It's just what I was born to be

Cause I'm ultra, I'm the best  
I'm the alpha of the rest  
I'm creating worlds with my mind  
I might've lost it but I always find
