

Noises

Shamrain

You name it I have them all I haven't slept in two days I've been too scared Of all the terror that awaits Makes me gasp for air

Noise outside Keeping me awake It's the call of an endless rain
Noise outside Keeping me awake Everything as it has Always been

Fly with birds The pure white doves leave the darkness underneath This world I do not understand anymore

Noise outside Keeping me awake It's the call of an endless rain
Noise outside Keeping me awake Everything as it has Always been
