

Once She Gets Tired

Shanadoo

Life's rough enough to stay nice
And she's too tough for a compromise
There are no tears left to cry
She's never so stupid to live with a lie

Once she gets tired of a lovesick bore
She starts to scream and she slams the door
Once she is fed up with a candy ass
She takes her chance of getting more for less
So what more
Should she ignore
She's been stranded on a rocky shore
Life is Hardcore
There must be more
You can never reach the sky from the bottom floor

She's much too pride to give up
She'll never enter the losers club
Feeling the time passing by
She's riding the fire-and never ask why

Once she gets tired of a lovesick bore
She starts to scream and she slams the door
Once she is fed up with a candy ass
She takes her chance of getting more for less
So what more
Should she ignore
She's been stranded on a rocky shore
Life is Hardcore
There must be more
You can never reach the sky from the bottom floor

Once she was flying
So close to the stars
Now there are only scars in her heart

Once she gets tired of a lovesick bore
She starts to scream and she slams the door
Once she is fed up with a candy ass
She takes her chance of getting more for less
So what more
Should she ignore
She's been stranded on a rocky shore
Life is Hardcore
There must be more
You can never reach the sky from the bottom floor
