

P.O.W.E.R.

Shane Harper

Lightning bolts, in my heart
Cause girl, you got that power
Red eyes glow, my superstar
Turn me up a little louder

Can't figure out what you do to me
But you got me good, you got me good
You brought so much electricity
To the neighborhood, the neighborhood
Although it doesn't add up logistically
Tell me why it should, tell me why it should
Can't figure out what you do to me
But you got me good, you got me good

But I promise, it's not like me
To fall in love with a stranger at first sight
But my body, can't fight it
You take me down, just one look into your eyes

Lightning bolts, in my heart
Cause girl, you got that power
Red eyes glow, my superstar
Turn me up a little louder

Cause girl, you got that power [x2]

I don't know 'bout your history
And I wouldn't care, want you anyway
I don't want you to ever leave
So just stay the night
Why don't you babe?

But I promise, it's not like me
To fall in love with a stranger at first sight
But my body, can't fight it
You take me down, just one look into your eyes

Lightning bolts, in my heart
Cause girl, you got that power
Red eyes glow, my superstar
Turn me up a little louder

Cause girl, you got that power

Something strong
Running through your bones
The way your power makes me glow
And we ignite, cause baby
Oh the fire's you

Lightning bolts, in my heart
Cause girl, you got that power
Red eyes glow, my superstar
Turn me up a little louder

Cause girl, you got that power [x5]
