

Come In Close

Shane & Shane

Lord come in close
As close as You'd like
I 'm not afraid
Of the fire in Your eyes
Though the road's costly
I lay down my life
You are my portion
You are my prize

I trust You
I trust You

Lord come in close
Make Your home in side
I know You're consuming
But I won't try to hide
Though Your way wounds me
I lay down my p ride
There's a longing in m y heart
Only You satisfy

I trust You
I trust You
In the darkest of nights
Or the highest of highs I trust You

I know You hold the earth
The stars and sea
And You say they're good
Like the plans You have for me
How much more Your word
That can not return empty
Will be good for me to trust and to believe

Will be good for me to t rust and to believe
In Your promises I trust and I believe

I trust You
I trust You
In the darkest of nights
Or the highest of highs I trust You

Lord come in close
As close as You'd like
I'm not afraid
Of the fire in Your eyes
Though the road's costly
I lay down my life
You are my portion
You are my prize
