

Heart Starts Beating

Shane & Shane

Before we knew of our great need
You cared for us
You cared for us
You have buried sin and death
Deep in the dust
Deep in the dust

You call us out from our sleep
And we run to You

Your death awakens me to life
And my heart starts beating
My heart starts beating
Endless songs arise to You
And our hearts start beating
Our hearts start beating

Catching glimpses of Your face
We're wanting more
We're wanting more
Fill our senses and our souls
So we can't ignore
We can't ignore

You call us out from our sleep
And we run to You

Your death awakens me to life
And my heart starts beating
My heart starts beating
Endless songs arise to You
And our hearts start beating
Our hearts start beating

You make us alive
You make us alive
You make us alive
You make us alive
You make us alive
You make us alive
You make us alive
We are alive

Your death awakens me to life
And my heart starts beating
My heart starts beating
Endless songs arise to You
And our hearts start beating
Your death awakens me to life
And my heart starts beating
My heart starts beating
Endless songs arise to You
And our hearts start beating
Our hearts start beating
Our hearts start beating
