

## Miracle Or Not

Shane & Shane

How long will I have to hear the stories  
Of how you were able  
How long will I have to celebrate  
The miracle that's not my own  
How long will I lift my voice and sing again  
That You are always good  
When I'm feeling all this distance  
I thought I never would  
How long

As long as it takes for my heart to find its song  
As long as it takes to know I'm still not alone  
And at the end of the day  
I'll stand right here and say  
I know that you love me miracle or not

How long will I give myself  
Be fore I give up waiting  
How long will I have to hide be hind this smile  
That says that I'm okay  
How long will I hold on to the promises  
I thought I heard you speak  
When every passing day  
Just leaves me broken down and weak

As long as it takes for my heart to find its song  
As long as it takes to know I'm still not alone  
And at the end of the day  
I'll stand right here and say  
I know that you love me miracle or not

I will sing it 'til my broken heart believes it  
I'll declare it 'til I smell the smoke of faith  
And with my hands held high  
I'll scream it in the darkness  
'Til hope is finally louder than the ache

As long as it takes for my heart to find its song  
As long as it takes to know I'm still not alone  
And at the end of the day  
I'll stand right here and say  
I know that you love me  
I know that you love me  
I know that you love me  
Miracle or not
