

Wait For You

Shane & Shane

I will wait for You I will wait for You
When these mountains won't move
Still I'll wait here for You
I will take Your hand I will take Your hand
When I don't understand
Still I'll take Your hand

And You know my lying down
And You know my rising up
And where can I go that
You won't always be there waiting

I will wait for You I will wait for You
When these mountains won't move
Still I'll wait here for You

And You know my lying down
And You know my rising up
And where can I go that
You won't always be there waiting

And You know my lying down
And You know my rising up
And where can I go that
You won't always be there waiting

I won't give up on You
'Cause You don't give up on me
When I don't understand
You keep me standing

I won't give up on You
'Cause You don't give up on me
Lord in my unbelief
You keep believing in me

And someday through Heaven's door
I'll find what it all was for
Hope isn't far a way
'Cause You're here waiting

I will wait for You I will wait for You
When these mountains won't move
Still I'll wait here for You
I will take Your hand I will take Your hand
When I don't understand
Still I'll take Your hand

And You know my lying down
And You know my rising up
And where can I go that
You won't always be there waiting

And where can I go that
You won't always be there waiting for me
