

Without You

Shane Smith & The Saints

The sky turned black the day you left
All these colors left to rest
Shades of gray would lead the night in from the west
She told me angels fly away, we'll meet again someday
I am lonesome without you

I am so lonesome without you, my baby doll
I am lonesome without you
She told me angels fly away, we'll meet again someday
I am lonesome without you
Without you

Now I tried to hide my pain
But I'm walking in the rain
I lost my light to lurking darkness I'm searching anyways
I prayed to Jesus and I said "I'm a sinner not a saint"
You alone showed me light to find faith

I am so lonesome without you, my baby doll
I am lonesome without you
She told me angels fly away, we'll meet again someday
I am lonesome without you
Without you

I am so lonesome without you, my baby doll
I am lonesome without you
She told me angels fly away, we'll meet again someday
I am lonesome without you
Without you
