

I Wish

Shanice

Hey you
You know, there's a few things I wanna get off my chest
I know we've been friends for a while
And you know how I feel about you

It's just not fair
And I've been holding back my feelings for so long
I should have never let myself fall in love with you
Now I let you have someone else

Sometimes I wish I had never met you
'Cause I can't have your loving
Sometimes I wish I had never met you
'Cause I know, boy I know that we won't be the two

I have a broken heart you see
But you're not the one to blame, oh no
'Cause I didn't know how hard it was
Controlling my inner feelings this way

Darling, I know you were so right for me to fall in love with you
To fall in love with you
I really didn't want to
'Cause it's so very clear to see that you already got somebody
And I'm not fond of jealousy
But I do believe

Sometimes I wish I had never met you
'Cause I can't have your loving
Sometimes I wish I had never met you
'Cause I know that we won't be the two

Denise is such a hurting thing
'Cause you're like in my every pass
You'll fight oh yes, you are
And I know that you're feeling so guilty
Even though we realized it's not your fault
It's not your fault, baby

Cause the one that has your heart right now
She's such a lucky girl
The luckiest in the world
'Cause if I had one wish to bring
I'd wish that you'd be here with me
But reality's killing me
Oh, can't you see

Sometimes I wish I had never met you
'Cause I can't have your loving
I know it's wrong
Sometimes I wish I had never met you
I'm so in love
'Cause I know that we won't be the two

Listen
Since the day I first saw your face
This feeling's I've tried to replace, babe

Over, over, over again
But it's not very easy
You just don't know you've done to me

'Cause I know it's true
No matter what I do
I still love you, I still love you
Baby, I do, yeah

I wish I'd never met you
I'm still in love with you
Baby, I do
I wish I'd never met you, baby
I do
Loving you
Sometimes I wish

Baby
But it's something 'bout you, baby
That turns me on

Don't get me wrong when I say it's true
Sometimes I wish I'd never met you
No matter what
I still love you

Don't get me wrong when I say it's true
Sometimes I wish I'd never met you
No matter what
I still love you

I really didn't mean it
But it's so hard, it's so hard
It's so hard to say goodbye
Can I throw away the feeling that I feel about you, baby
Don't get me wrong when I say it's true
