

Beautiful and Strange

Shannon McNally

When they say a heart's too young to truly fall in
love
are these the words of liars or just fools
who's to say when that feeling will creep
down an anonymous street
and break every sensible rule

It's beautiful and strange
common and plain
and the only thing for certain is all the uncertainty
you feel
you're numb, revealed and sometimes hidden
from the truth that you know all too well inside
and these are only a few of
the many contradictions of love.

Love's a pirate, a thief
who'll make you believe
that one day he'll fly a flag of truce
though he lies through his smiles
still he makes you believe
you know, you could be wrong

It's beautiful and strange
common and plain
and the only thing for certain is all the uncertainty
you feel
you're numb, revealed and sometimes hidden
from the truth that you know all too well inside
and these are only a few of
the many contradictions of love
What's a little confusion
a little despair
if it's the price to be recognized by love?

yes, it's beautiful and strange
yes, it's beautiful and strange
and it's beautiful
