

# Collide

Shannon Noll

Are you feeling alright  
Cause I need you tonight  
I've been moving too slow  
Waiting for the sun to show, to show

Do you ever hope for something better  
Baby we can make it to the other side  
I know that we're gonna be together  
I feel you getting closer at the speed of light  
As we collide

Like an angel from above  
You're the sweetest kind of love  
We could let it all go  
Or crash in to the great unknown  
Unknown

Do you ever hope for something better  
Baby we can make it to the other side  
I know that we're gonna be together  
I feel you getting closer at the speed of light  
As we collide

Tonight  
We collide

Are you feeling alright  
Cause I need you tonight  
We could let it all go  
Or crash in to the great unknown  
Ohhhh

Do you ever hope for something better  
Baby we can make it to the other side  
I know that we're gonna be together  
I feel you getting closer at the speed of light  
As we collide

Yeah  
We collide

Ohhh  
We collide
