

Give It Away

Shannon Noll

In the dead of night I feel you breathing
And I ask myself if you're really there
Maybe you don't know

That sometimes I need you
More than I want to
Sometimes I don't give in
When i should do
You tell me you love me
You're tryin' to convince yourself
But you just give it away

In the words that you don't say
Screamin' louder and louder
And you can't hide what you're missin' inside
But it's there
In what you don't say

When the rain comes down i know you're cryin'
But you always tell me you're OK
You surround yourself
With people to talk to
Somewhere to run to
Somewhere where we can talk like we used to
It's never spoken
Something has broken down
And you don't wanna give it away

Sometimes i need you
More than i want to
Sometimes i don't give in
When i should do
Maybe i should do
Give it away, give it away, yeah

And you can't hide what you're missin' inside
But it's there
In what you don't say
The words that you don't say
