

# Land of Mine

Shannon Noll

First light in a field of gold  
Wheels turning on an open road  
Thousand miles from the ocean breeze  
Sweating in 45 degrees

Hands working 'til the sun goes down  
Dust rising from the broken ground  
Country girls in the summertime  
Singing "Run to Paradise"

I know I'm home now  
Here in this land of mine

See the fire burning  
Through the droughts and driving rains  
See the flood-ripped desert plains  
Come back to life  
I can feel the thunder  
Like a heartbeat in the night  
See the stars of county shine down on me, yeah  
I know I'm home now  
Here in this land of mine

Out there on the river's edge  
Where the dreaming never ends  
A place frozen still in time  
That's a place I was born to find

I know I'm home now  
Here in this land of mine

See the fire burning  
Through the droughts and driving rains  
See the flood-ripped desert plains  
Come back to life  
I can feel the thunder  
Like a heartbeat in the night  
See the stars of county shine down on me, yeah  
I know I'm home now  
Here in this land of mine

I'm heading in the right direction  
This time I know we're gonna go the distance  
Together we can take this all the way

See the fire burning  
Through the droughts and driving rains  
See the flood-ripped desert plains  
Come back to life  
Can you feel the thunder  
Like a heartbeat in the night  
See the stars of county shine down on me, yeah  
I know I'm home now  
Here in this land of mine

Here in this land of mine  
Here in this land of mine

Here in this land of mine  
Here in this land of mine
