

Black Rain

Shannon Wright

The world came tumbling down
The day is crashing through
Your tear dim eyes in their best disguise
Know that things must fall somewhere

Come let's make things safe
The trouble it shall break
The leaves have changed to red
No more black rain
No more black rain to come

There's no need to ask why
When the boat is sinking
We didn't move when we needed it most
Know that things must fall somewhere

Come let's make things safe
The trouble it shall break
The leaves have changed to red
No more black rain
No more black rain
No more black rain to come

Come let's make things safe
The trouble it shall break
The leaves have changed to red
No more black rain
No more black rain
No more black rain to come
