

They want
Truce and havoc
Can't you see that's what you do best?
Tell me how
To rid this poison
That you put inside your head
Tell me how
How it's over
You're relying
I'll be in here

(Chorus)

So you cry for something
Just don't know where
Tell me that it's over
The look on your face
Now the door's wide open
'Cause that is too late
And little you had
Can't give away
They want

Truce and havoc
Can't you see that's what you do best?
Tell me how
To rid this poison
That you put inside your head
Your misery
Comes in harmony
Misery
Comes in harmony

(Chorus)

So you cry for something
Just don't know where
Tell me that it's over
The look on your face
Now the door's wide open
'Cause that is too late
And little you had
Can't give away
