

Bring Change

Shapeshifter

You know the time and place is right,
Best to leave all adversity behind
Can't let that hold us back this time
You got to change
We got to change
So if we open up our mind
And we see that everything exists inside
Maybe we'll overcome the fight
We got to change
You got to change

You got to, we got to
You got to help us bring change
You got to, we got to
Learn to connect and bring about change

You got to, we got to
You got to help us bring change
You got to, we got to
Learn to connect and bring change

You got to, we got to
You got to help us bring change
You got to, we got to
Learn to connect and bring about change

You got to, we got to
You got to help us bring change
You got to, we got to
Learn to connect and bring change

To bring change
To bring change

You got to, we got to
You got to help us bring change
You got to, we got to
Learn to connect and bring about change

You got to, we got to
You got to help us bring change
You got to, we got to
Learn to connect and bring change

To bring change
To bring change
To bring change
We can bring change
We got to change
You've got to change
We can bring change
We can bring change
