

Gravity

Shapeshifter

At first light I think we both knew
Just what we were getting into
Now it feels just like I'm falling
When will I hit the ground
Will I be running, for you
Every time I feel my heart beat
That's when I know you're around
Could you be what I've been after
Or more precise, my disaster

(Ooh...)

(Heey...)

As I run I am free
No longer fightin' gravity
All triumph and tragedy
Please run run away with me

As I run I am free
No longer fightin' gravity
All triumph and tragedy
Please run run away with me

Not a thing that they could do
That's gonna slow me down
Now that I've found my way
And I am moving

(Ooh...)

(Heey...)

As I run I am free
No longer fightin' gravity
All triumph and tragedy
Please run run away with me

As I run I am free
No longer fightin' gravity
All triumph and tragedy
Please run run away with me

Barely touch the ground
Head off in the clouds
Ain't gonna take me down
Now that I've found this, I'm boundless.
Now that we've found this, we bound
