

One

Shapeshifter

One two, one two

Don't you go and, let the world weigh you down
Should you ever fall, I'm gon be around
Pick you up, keep you away from harm
Free from all the stress and, take within my arms
Take away the way to ease the pain
When our day is done, we shall be one

So don't you go and let the world bring you down
If you ever fall, I'm gon be around
I'm gon be around

Don't you go and, let the world weigh you down
If you ever fall, I'm gon be around

So don't you go and, let the world bring you down
Should you ever fall, I'm gon be around
Pick you up, keep you away from harm
And when our day is done, then we shall be one

We shall be one
