

## Jupiter 4

Sharon Van Etten

Our love's for real  
How'd it take a long, long time  
To let us feel?  
Try to relate  
In my state  
And the aura 'round me says  
"My love is for real"

Touching your face  
How'd it take a long, long time  
To be here?  
Turning the wheel on my street  
My heart still skips a beat  
It's echoing, echoing, echoing, echoing, echoing

Baby, baby, baby  
I've been searching for you  
I wanted to be in love  
Baby, baby, baby  
I've been waiting, waiting, waiting  
My whole life for someone like you  
It's true that everyone would like to have met  
A love so real  
A love so real

Baby, baby, baby  
I've been searching for you  
I wanted to be in love  
Baby, baby, baby  
I've been waiting, waiting, waiting  
My whole life for someone like you  
It's true that everyone would like to have met  
A love so real  
A love so real  
A love so real  
Our love so real
