Trouble

Sharon Van Etten

All the trouble I got you in
All the trouble I'll get you in
Uh huh
All the stories that I can't tell
Watered down versions of my own hell
Uh huh

I don't want to lose your love against your will
Blow you kisses and take a pill
To kill
I don't want to lose your love against your will
Blow you kisses and take a pill
To kill

I don't want to lose you
Not if I can choose to

All the bubbles that we live in
All the bubbles I want the pin to pop
All the lies we've told ourselves
All the ways that we retell
Aha

I don't want to lose your love against your will
Blow you kisses and take a pill
To kill
I don't want to lose your love against your will
Blow you kisses and take a pill
To kill

I don't want to lose you
Not if I can choose to
I don't want to lose you
Not if I can choose to

All the trouble I got you in
All the trouble I got you in
All the trouble I got you in
All the trouble I'll get you in
