

## Give 'Em Hell Kid

Sharptooth

It's in the air, can you feel it?  
Cause I feel it too  
You see the panic is rising  
Brought on by red and blue

See, they don't understand  
That there's no peace without justice  
So take it in your hands  
Strike the match  
And fire it up  
We the people have spoken:  
We'll start a blaze to burn down a system that's broken

Cause even with all my privilege  
If I cannot trust  
What kind of life does that mean for  
All the rest of us?

See, they don't understand  
That there's no peace without justice  
So take it in your hands  
Strike the match  
And fire it up  
We the people have spoken:  
We'll start a blaze to burn down a system that's broken

We're at a point in time where we must choose  
'Cause what we stand to gain outweighs what we must lose  
This system already hates us, we've heard it all before  
I think it's time we made them hate us even more

Burn it to the ground  
Burn it to the ground  
Burn it to the ground  
Burn it to the fuckin' ground
