

Left 4 Dead

Sharptooth

"Hush little baby, don't say a word
You're gonna get what you deserve
If you didn't get drunk, or wear that dress
Then would I think that no means yes?"

For too long I've waged this war
Victims of violence suffer in silence
But I can't be silent anymore
Any more

You left us for dead when you robbed us of choice
You blamed us and shamed us from using our voice
Trapped in a memory that I can't escape
Too scared to admit I was raped

For too long I've waged this war
Victims of violence suffer in silence
But I can't be silent anymore
Any fucking more

Left for dead
Right where I fucking bled

What part
Of "No"
Don't you
Fucking
Understand?

No
I told you "No"
