You know wey back when I told people um
I was learning, I was studying music business
I was trying to see how well I could build my craft
Many didn't believe I could get to this, you know this wonderfu
l level that I have gotten to
And I just wanna tell people that
Yeah, anything you do, and you have some people believing in yo
u
Like my fans, do believe in them 'cos the fans are the original
ity of all this identity I have today
Like they say, the voice of the people
Is always the voice of God...
