Recreational, something cerebrating but um  
I just decided to put my mind more to it as a business  
'Cause I feel, music has being you know, something that I've wa  
tched from far and people do make money from  
So I decided to use social media to promote my works

And you know, with technology you can get your music across the  
world  
At this time, I wanna take this opportunity to thank all my soc

From facebook, twitter, instagram, snapchat  
You guys you know, really helped in making this dream come true
