We're sitting face to face
But we're looking at somewhere else
Without knowing the answer
We repeat the same story
Even if I write it down again
Our last chapter is
Already written down
An unavoidable, closed ending

The moments of those times
Feel exactly like a dream
Our unfading
Time together
Countless seasons
Pass by one after the other
The only thing left here
Is vagueness

We've all heard about it at least once
The same boring ending of love
I know it well but I can't cover
The thought of you

We're sitting face to face
But we're looking at somewhere else
Without knowing the answer
We repeat the same story
Even if I write it down again
Our last chapter is
Already written down
An unavoidable, closed ending

Even if I write it down again

Our last chapter is
Already written down
An unavoidable, closed ending

The road we walked side by side
If I walk alone
And I stumble on
What was yesterday
With a stopped watch
And the spring without an answer
Even if I wait everyday
It won't change

The old memories that pass through my heart
When that existence exceptionally hurts
Even if I close my eyes, it gets clearer
Your image

We're sitting face to face
But we're looking at somewhere else
Without knowing the answer
We repeat the same story
Even if I write it down again
Our last chapter is
Already written down
An unavoidable, closed ending

My heart that left the last chapter
I know it all but I can't stop it
It's engraved so deeply here that I can't erase it
The End

Now the unchangeable
Last chapter of us
Is already written down
An unavoidable, closed ending

Even if I write it down again
Our last chapter is
Already written down
An unavoidable, closed ending
