Don't Let Me Know

Shaun

In my head without a reason
120 going through my mind
The thought of you ain't leaving
Like the touch you gave to me last night
You're all that I've been needing
Oh, a feeling like it just ain't right
But if I let you go where will I get my highs

In the fire we glow
Things are burning up
And I got no way home
Ever since the night I met you
Been a mess and second guessing everything I know
'Cause everytime that I rush you, take it slow

So tell me what we are
Don't leave me in the dark
I can give you what you want
But don't wanna get it wrong
Tell me what we are
'Cause I'm falling apart
But if what you might say takes me low
Don't let me know

Tell me what I need to know before I let go
Tell me what I need to know but don't take me low
Tell me what I need to know before I let go
Tell me what I need to know but don't take me low

Oh, I been lucid dreaming
I've seen you dancing in my room
From morning to evening
Even though I know that it's not you
That's singing all these lyrics anymore
But I'll listen to them like they're the encore

In the fire we glow
Things are burning up
And I got no way home
Ever since the night I met you
Been a mess and second guessing everything I know
'Cause everytime that I rush you, take it slow

So tell me what we are
Don't leave me in the dark
I can give you what you want
But don't wanna get it wrong
Tell me what we are
'Cause I'm falling apart
But if what you might say takes me low
Don't let me know

Tell me what I need to know before I let go
Tell me what I need to know but don't take me low
Tell me what I need to know before I let go
Tell me what I need to know but don't take me low

If I see you blurring the lines
Am I the one that saying goodbye?
No matter what I show
I know I can't let go of you, of you
So don't let me go
Don't take me low
Don't let me know

Tell me what I need to know before I let go
Tell me what I need to know but don't take me low
Tell me what I need to know before I let go
Tell me what I need to know but don't take me low

So tell me what we are
Don't leave me in the dark
Tell me what I need to know before I let go
So tell me what we are
'Cause I'm falling apart
Tell me what I need to know but don't take me low

If I see you blurring the lines
Am I the one that saying goodbye?
No matter what I show
I know I can't let go of you, of you
So don't let me go
Don't take me low
