

# Monsters

Shaun

We've got monsters deep in our head  
We'll be holdin' our breath for dawn  
Those shadows lie across the bed  
Know they're waiting for us to move  
But if we can befriend the dark  
Then the edge of the light shines through  
I believe in everything you do  
Always here with you

Got used to tellin' lies  
Like that bein' all alone was all okay  
All around me people grew  
Saw them bloom wild on the vine then  
There's me, And you  
Forgettin' how to be so soft to a touch  
I wish, We could  
Just kill this pain

We've got monsters deep in our head  
Sayin' how could someone love you  
Those shadows lie across the bed  
Know they're waiting for us to move  
But if we can befriend the dark  
Then the edge of the light shines through  
I believe in everything you do  
Always here with you

Feels hard to make some sense  
Reasons why we hurt ourselves, it's not okay  
All those hands we push away  
Let me in when the voices start to say  
No one cares  
It's a damn lie, I'm here all the time  
And you, Will fly  
Even when it hurts

We've got monsters deep in our head  
We'll be holdin' our breath for dawn  
Those shadows lie across the bed  
Know they're waiting for us to move  
But if we can befriend the dark  
Then the edge of the light shines through  
I believe in everything you do  
One day you will too

Your heart beats for you  
It knows what to do  
Baby, know your truth  
I'll be right by you  
I mean it, yeah  
I'll be here, oh no  
And the wishes you made, you will make true

We've got monsters deep in our head  
We'll be holdin' our breath for dawn  
Those shadows lie across the bed  
Know they're waiting for us to move

But we've made friends with the dark  
And the brightest of light shines through  
You believe in everything you do  
Monsters can't touch you
